

HALDRUP GCP-20

Grain counter and filling machine

HALDRUP GCP-20 with removable carousel, roller transportation and filling automatic, counts grains with high speed and precision.

With a speed of approx. 1000 grains per minute, e. g. maize, soybean and sunflower seed is counted and filled into bags. Grains are detected by a sensor and transported by adjustable rollers. The number of grains per bag and the number of bags can be selected freely. The start-stop system installed in front of the optical sensor helps to stop rolling grains on time.

HALDRUP GCP-20 IN ACTION

GERMANY | HALDRUP GmbH

Justus-von-Liebig Straße 3 | D-74532 Ilshofen
Tel.: +49 (0) 7904 943998-0 | Fax: +49 (0) 7904 943998-660
Mail: info@haldrup.net | www.haldrup.net

FRANCE | HALDRUP SARL

14 rue des peupliers | F-72190 Sargé-lès-le-Mans

Mail: info@haldrup.net | fr.haldrup.net

Via touchpanel the speed can be adjusted and the sensitivity of the optical sensor in measuring different sizes of grain can be changed.

Additionally, the HALDRUP GCP-20 grain counter and filling machine can be equipped with a barcode-reader and a scale. The recorded measurement values are saved on USB stick or SD card.

TECHNICAL DETAILS

Counting accuracy	Approx. 100 %
Counting speed	Maximum approx. 1000 grains per minute, adjustable from 1 to 100 %
Number of grains per bag	Maximum 999 pieces
Number of bags to be filled in one operation	Maximum 999 bags
